

Wheel of Health Clinical Profile

Lucy Weech

Clinical Director | Occupational Therapist

Role	Clinical Director
Profession	Occupational Therapist
Professional registration	HCPC registered Occupational Therapist
Region	Hampshire / South of England
Specialist focus	Complex disability, paediatrics, wheelchair seating and 24-hour postural management

Professional profile

Lucy Weech is an experienced Occupational Therapist and Clinical Director of Wheel of Health Limited, with over two decades of specialist practice supporting children, young people and adults with complex physical, neurological and learning disabilities. She has particular expertise in 24-hour postural management, complex wheelchair and specialist seating assessment, manual handling, personal care needs, specialist equipment provision and wheelchair accessible vehicle assessment. Lucy works closely with individuals, families, case managers, schools, support teams and wider multidisciplinary professionals to develop holistic recommendations that support comfort, function, safety, independence and quality of life. Her practice is grounded in detailed clinical reasoning, collaborative working and a clear understanding of the long-term impact of posture, equipment, care and environmental provision on daily life. Alongside her clinical work, Lucy leads Wheel of Health's team of Clinical Associates and provides clinical oversight for complex assessment, reporting, equipment recommendation and service quality.

Specialist clinical expertise

- 24-hour postural management for children and adults with complex disability
- Complex wheelchair, specialist seating and postural equipment assessment
- Assessment and recommendation of personal care, manual handling and support-worker training needs
- Assessment for wheelchair accessible vehicles and specialist equipment
- Paediatric occupational therapy, including cerebral palsy, acquired brain injury, severe learning disability and life-limiting conditions
- Medico-legal rehabilitation cost reporting and post-settlement clinical input

- Multidisciplinary working with families, case managers, education teams, therapists, care teams and suppliers

Contribution to Wheel of Health

As Clinical Director, Lucy shapes the clinical standards, values and specialist practice model of Wheel of Health. She ensures that assessment and intervention remain person-centred, clinically reasoned and focused on practical outcomes for the individual and those supporting them. Her leadership supports consistency across the associate team, ensuring that complex reports, equipment recommendations and clinical reasoning are aligned with the organisation's commitment to quality, transparency and individualised care.
